harness the power

UNLOCK YOUR INTUITIVE INTELLIGENCE

“The intuitive mind is a sacred gift and the rational mind is a faithful servant. We have created a society that honors the servant and has forgotten the gift.”

– Albert Einstein

Think Branson, Jobs, Winfrey and Buffett. What quality does each of them credit as the secret to their success? Intuition! It’s time to move beyond the old models of generating linear results. The speed at which business, trends and markets change has reached unprecedented levels. The ability to **access deeper levels of intelligence**, leverage connections and make quick decisions in the absence of complete information will be the mark of the new leader.

People believe that intuition is a gift – that you are either born with it or not. The truth is that **intuition is a faculty of the mind that can be cultivated and honed to produce replicatable results**. Intuition is a system that everyone possesses. But not everyone has the discipline required to develop and leverage it to produce outstanding success. An Australian university study of serial entrepreneurs showed that 80% relied on intuition when making important business decisions. Yet, very few people know how to cultivate it.

The new leader must learn to trust this intuitive faculty. The new leader must learn to be disciplined in fostering reliability in this system. The new leader must learn to unlock the time-saving mechanics of choosing the intuitive process over the time-consuming logical process. The time has come to go inside to find the connections in order to solve the problems on the outside. Are you ready to lead from the inside out?

Come and learn what the best entrepreneurs and innovators in the world are using as a shortcut to success! **Intuition is the new success hack!**
